The complete list of Patient Education Resource Pages is available to view at <http://cancer.ucsf.edu/support/crc/patient-education-resources>

Overview

Breast cancer may occur in men. Breast cancer may occur in men at any age, but it usually occurs in men between 60 and 70 years of age. Male breast cancer makes up less than 1% of all cases of breast cancer. Website: <https://surgery.ucsf.edu/conditions--procedures/male-breast-cancer.aspx>

UCSF Resources

UCSF Carol Franc Buck Breast Care Center

UCSF Health's breast care clinics provide preventive, diagnostic and treatment services in a warm, caring environment. We address all breast health concerns and conditions, including all types of breast cancer. We are committed to delivering innovative, comprehensive care that's tailored to each patient's needs, wishes and type of cancer. As a national leader in breast care research, we also focus on discovering safer and more effective prevention and treatment approaches. Our patients are among the first to benefit from new discoveries. To make it easier for patients to access advanced breast care wherever they live, we have locations throughout the Bay Area.
