The complete list of Patient Education Resource Pages is available to view at <http://cancer.ucsf.edu/support/crc/patient-education-resources>

Overview

Thyroid cancer is more common among women than men and accounts for only one percent of all cancers diagnosed in the United States. Most thyroid cancers grow slowly but certain types can be aggressive. There are four major types of thyroid gland cancer: anaplastic, follicular, medullary and papillary. Learn more information about signs, symptoms, diagnosis, treatment, and resources at the link provided. Website: <https://www.ucsfhealth.org/conditions/thyroid-cancer>

UCSF Resources

UCSF Head and Neck Surgery Cancer Program

The UCSF Head and Neck Surgery Cancer Program provides comprehensive, world-class care for people with head and neck tumors. These tumors can affect key functions such as breathing, speech, sight and swallowing, as well as appearance. We are committed to providing the most advanced and personalized care to protect both our patients' health and their quality of life. We're equally committed to providing an accessible, caring and informative environment that supports patients before, during and after treatment. Organizations

Cancer Support Community – Thyroid Cancer

As the largest professionally led nonprofit network of cancer support worldwide, the Cancer Support Community is dedicated to ensuring that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community.

Website: <https://www.cancersupportcommunity.org/thyroid-cancer> | Phone Number: 888-793-9355

Head and Neck Cancer Alliance

As the largest professionally led nonprofit network of cancer support worldwide, the Cancer Support Community is dedicated to ensuring that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community. They provide resources for patients and caregivers and other informational resources. They also have numerous programs including peer to peer support, gas card program, and survivorship webinars.

Website: <https://www.headandneck.org/> Phone Number: 866-792-4622

HNC Living Foundation

HNC's mission is to help head and neck cancer patients live life fully, during and after treatment, through financial assistance. Although starting local, their vision and commitment is to become the national resource of financial assistance for head and neck cancer patients. They provide financial assistance in a variety of ways including dental assistance, lodging, transportation, and other patient services. Website: <https://www.hncliving.org>

Light of Life Foundation

The mission of the Light of Life Foundation is to improve the quality of life of thyroid cancer patients through continual education of the lay public and the medical community, and by promoting research and development to improve thyroid cancer care. Website:

<https://lightoflifefoundation.org>

National LGBT Cancer Network

The National LGBT Cancer Network works to improve the lives of LGBT cancer survivors and those at risk by: EDUCATING the LGBT community about our increased cancer risks and the importance of screening and early detection; TRAINING health care providers to offer more culturally-competent, safe and welcoming care; and ADVOCATING for LGBT survivors in mainstream cancer organizations, the media and research.

WebWhispers

WebWhispers was started in 1996 for those who had questions about larynx cancer treatments, surgery, recovery, and what life is like after laryngectomy surgery. We are now the largest support group for individual laryngectomee survivors of larynx and other throat cancers. We offer advice from those who have been there and education at the time it is needed. Our membership is composed of patients, caregivers, medical professionals and suppliers. Come join us in order to use our full facilities. It's free to join and no dues to pay.
